Proposed claim amendments

1. (Currently amended) A method for browsing web sites using a browser program running on a computer, comprising the steps of:

(1) ~~(a)~~ receiving, from a server web page, structures for web sites and web page attributes, including information concerning said web sites; and

(2) ~~(b)~~ displaying said page structures and said page attributes in correlation with each other such that a user can manipulate the display of said page structures and said page attributes but cannot change said page structures and said page attributes.

14. (New) The method of Claim 1, wherein user manipulation of a display of either said page structures or said page attributes causes a corresponding display of the other to dynamically change.
